

BARAKA TINEYI HOMODZA

Game Programmer (Unreal Engine & Unity)

homodza1@gmail.com · +263 77 113 3966 · [linkedin.com/in/baraka-homodza](https://www.linkedin.com/in/baraka-homodza) · [bababuyi.github.io](https://github.com/bababuyi)

Open to relocation and remote opportunities

SUMMARY

Game Programmer with UE5 and Unity experience across gameplay systems, enemy AI, VR, and editor tooling. Built Chengetedzo — a financial literacy simulation deployed with microfinance organisations in Zimbabwe. Open to remote roles and relocation.

WORK EXPERIENCE

Nimbus Games — Game Development Intern

2024

- Developed core gameplay mechanics and puzzle logic in Unreal Engine 5
- Promoted to lead a new cohort of programming interns — onboarded them in Unreal Engine and guided implementation of an initial game prototype for an upcoming project

SKILLS

Programming Languages	C++, C#, Python
Game Engines	Unreal Engine 5 (C++ & Blueprints), Unity
Gameplay & Systems	Enemy AI, Finite State Machines, Branching Dialogue, Puzzle Mechanics, Procedural Generation
Specialisations	VR Development, UI Systems, Narrative Gameplay, Editor Tooling
Tools	Git, GitHub, Perforce, UMG, Blender

SELECTED GAME DEVELOPMENT PROJECTS

Chengetedzo – Financial Literacy Simulation (Unity)

Role: Programmer / Designer

- Built a financial simulation modelling income, household expenses, insurance, savings, microloans, and emergencies over time
- Designed and implemented core economy systems in C# for educational deployment with microfinance organisations in Zimbabwe

GitHub: github.com/bababuyi/Chengetedzo · Itch.io: babazw.itch.io/chengetedzo

CatBurglar – Stealth Game (Unity)

Role: AI Programmer / Game Designer

- Implemented a custom Finite State Machine enemy AI with patrol, alert, and chase states driven by player proximity and line-of-sight detection
- Guards adapt dynamically to sound and movement cues, creating reactive stealth gameplay

GitHub: github.com/bababuyi/CatBurglar

Reflection of the Mind – 2D Visual Novel / Puzzle Game (Unreal Engine 5)

Role: Solo Developer (Programmer, Artist, Writer, Designer)

- Designed and implemented a branching dialogue system where player choices influence character behaviour and narrative progression
- Developed narrative-driven puzzle mechanics integrated directly into story progression
- Built UI systems for dialogue, choices, and player feedback using UMG; created all visual assets and narrative content solo

GitHub: github.com/bababuyi/Reflection-Of-The-Mind

Side Step – Mobile Endless Runner (Unity)

Role: Gameplay Programmer / 3D Artist

- Implemented procedural tile spawning with obstacles and pickups; built a stumble-and-recover damage system and four power-ups with an upgradeable coin shop
- Developed a curved-world shader and object pooling for mobile performance
- Currently reworking solo: refactoring scripts, optimising the tile system, and remodelling all assets in Blender

GitHub: github.com/bababuyi/EtiqaEndlessRunner · Itch.io: babazw.itch.io/side-step

Munmun's Revenge – 3D Platformer (Unity)

Role: *Gameplay Programmer / Game Designer*

- Implemented enemy AI with roaming behaviour and proximity-based player detection with contact-triggered damage
- Tuned enemy movement parameters to support level flow and challenge balance

GitHub: github.com/bababuyi/MunmunsRevenge

Unity Scene Auditor – Editor Tool (Unity)

Role: *Tools Programmer*

- Built a Unity Editor extension that exports and audits scene hierarchies, component state, and script variables to JSON — designed for debugging wiring issues in complex scenes
- Actively maintained with new features in development

GitHub: github.com/bababuyi/UnitySceneAuditor

EDUCATION

Bachelor of Science in Computer Game Development

Asia Pacific University, Kuala Lumpur, Malaysia · Graduated April 2026

Second Class Upper Honours (CGPA: 3.29 / 4.0)

ADDITIONAL EXPERIENCE & ACTIVITIES

- Panelist – Button Bash Game Development Conference
- Game Development Club Member – Asia Pacific University (2022–2025)
- Exchange Student – Rotary E-Club District 9210 (Brazil) (2019–2020)
- Audio Visual Team – River of Life Church, Sound Engineering & Media Support (2015–2019, 2021–2026)
